Focus on pronunciation

Make international friends

Welcome to Native English College!

We are proudly owned and managed by teachers and enabling students to reach their linguistic potential is at the heart of everything we strive for. One of the major goals that language learners have is to sound more like native speakers. This extends to the accurate use of grammar, pronunciation, vocabulary choices and how students speak, listen, read and write.

Our curriculum and teaching style are designed to help students improve in all areas of their language proficiency. We have embedded a focus on native-like pronunciation and correction of grammatical errors into each of our courses. At **Native English College**, students follow the “English Only” policy to ensure maximum speaking and listening opportunities on campus. If you speak a language other than English on campus once, you receive a yellow card. If you speak for a second time, then you will need to miss the rest of the session with a red card. Students can move up a level any week of the year if they are ready, we don’t hold students back unnecessarily.

Our promise to all students is that we prioritise the quality of our education above all else, and we are honoured to be a part of your language learning journey.

TEACHING METHODOLOGY

Our classes are based on the Communicative Method. Students interact with the teacher and other students in pairs and groups. Our goal is for students to speak with the highest level of accuracy possible and as a result there is an emphasis on error correction whether they be pronunciation, grammar or word choice errors.

Our teachers are highly knowledgeable of the grammar of English as well as the International Phonetic Alphabet (IPA) to help you with your accuracy in speaking and writing. Teachers have a wide range of resources outside the textbook to help complete the learning goals of each class. We share materials and the academic manager and teachers all support each other by sharing experiences and new ideas with each other.

WE ARE VERY PROUD TO BE CERTIFIED BY

ASQA regulates RTOS and English Language Centers and approves CRICOS providers and courses for overseas students. It ensures quality education and compliance across Australia.

NEAS provides quality endorsement for English language centres in Australia and overseas. It ensures high standards in teaching, curriculum, and student support.

Pronunciation

At Native English College we emphasise the accuracy of student's pronunciation. We teach all students how to pronounce the consonants and vowels and use word and sentences stress appropriately. Students learn the different parts of the mouth, essential for producing all of the consonants and vowels clearly.

Students develop their knowledge of the International Phonetic Alphabet (IPA) so they can read the exact pronunciation for words in detail. Students learn to identify and produce the accurate word stress for all vocabulary and can use sentence stress naturally and also for emphasis.

The IELTS Preparation course prepares students to develop their overall proficiency and maximise their score on the exam. After completing the course students will be prepared to take the IELTS exam. The course integrates the four macro skills of Speaking, Listening, Reading and Writing as well as Grammar, Vocabulary, and Test-taking skills.

During the course students are exposed to tasks that are similar to those they will take on the exam. In their assessments they will need to complete mock tests which are taken from official preparation materials. The course caters for different learning styles and takes place in a cross-cultural environment which encourages students to draw on their experiences and express their individuality. Similarly, the course recognizes that students may have a range of learning styles which need to be catered for using a variety of teaching methods.
